Themes

Geophysical Innovation and Trends:

- Higher Efficiency, Lower impact Data Acquisition
- Oil & Gas onshore Exploration and Production
- Geophysics in Pre-Salt plays
- Reservoir Geophysics
- Mature Fields Revitalization
- Equatorial Margin
- Frontier in Near Surface Geophysics
- Mining Geophysics
- Energy Transition and Diversification
- R&D in Geophysics

Broad Themes:

- Seismic Methods I (Seismic acquisition, Rock Physics and Petrophysics, AVO analysis)
- Seismic Methods II (Seismic inversion, FWI, 4D seismic)
- Potential Methods
- Artificial Intelligence in Geophysics
- Remote Sensing
- Computational Geophysics
- EM and Electrical Methods
- Multi-Physical Methods
- Brazilian Seismology Symposium
- Rock Magnetism

EXPOSITION *WHAT IS GEOPHYSICS*

The "What is Geophysics?" exposition, promoted by the Brazilian Geophysical Society (SBGf), is an educational initiative aimed at introducing basic education students to the fascinating field of geophysics through engaging experiments and talks. Last year, we had the pleasure of welcoming over 300 students from Rio de Janeiro, providing them with hands-on experiences and insights into this dynamic scientific discipline.
